

Vision EurOK

Barcelona (spain), 22.05.2026, 9:30 Uhr - 23.05.2026, 9:31 Uhr

Prise en charges de la myopie évolutive de l'enfant avec les différents moyens de freination : atropine, verres, lentilles de contact mais aussi lumières rouges.

www.eurok.eu/eurokvision2026/

EurOK Vision 2026 is a unique event of its kind. This innovative and clinical-based meeting is focused on Seminars and clinical training events held between our main congresses.

4 Topics covered in 4 different conference rooms with 40/50 participants each using a rotating system:

- Room 1: Visual examination and Axial Length
- Room 2: Optical approaches in myopia management: spectacles
- Room 3: Contact lenses in myopia management: Soft and Ortho-k
- Room 4: Pharmacological and Light-Based Approaches in myopia management

Each topic includes:

- The scientific point of view
- The clinical point of view
- The Industry point of view
- Hands-on experience with the topic
