

INVITATION WEBINAR

GLAUCOMA VIRTUAL STORIES

18.11.2025

18.00 – 19.00 h

Chaired by

Dr med Karin D. Øyo-Szerenyi

CHALLENGES IN OPHTHALMOLOGY:
From Normal Tension Glaucoma
to Non-Adherence

Dear Colleagues,

I warmly invite you to join our upcoming webinar, where we will focus on two important challenges in ophthalmology. The first lecture, **“Normal tension glaucoma: how should I manage these patients”**, will address practical approaches to diagnosis and treatment in this complex field. I am delighted that **Prof João Breda from the University of Porto** will share his knowledge.

The second presentation, **“Non-adherence as a reflection of society”**, will highlight the broader context of patient behavior and its impact on medical care. **Dr. Lorenz Kuske, Dr. Frances Meier-Gibbons and Peter Jungblut** will show their concept for a better adherence.

This webinar offers an excellent opportunity to gain new insights and exchange perspectives with peers. I look forward to your participation.

Warm regards,

Dr med Karin Øyo-Szerenyi, Rapperswil
Augenzentrum Rapperswil

PROGRAMME

CHALLENGES IN OPHTHALMOLOGY: From Normal Tension Glaucoma to Non-Adhere

Topic	Speaker
Tuesday, 18.11.2025 18.00 – 19.00 h
